Welcome in.

Move more. *Your way.*

You're officially part of the RW Move community. Here's a quick hello from me, and everything you need to get moving.

HI, I'M RHI

When I found movement that actually brought me *joy*, everything shifted. It changed how I feel about my body, and it's the reason RW Move exists. I'm a fashion and fitness creator, and I teach Box2theBeat, Dance Fit and Step Fit in person.

Fitness here isn't about weight loss or fitting a mould. It's about energy, mobility and feeling good in your body, at whatever level you're at. Confidence looks good on everyone.

What's in your membership

Dance
Feel-good choreography for all levels.

Step
Classic step aerobics, modern style. Great for cardio and coordination.

Box2theBeat
Boxing combinations set to music. A full-body workout.

Workout
Strength and conditioning at home with minimal equipment.

2 to 3 new classes are added every month, so there's always something fresh to try.

Getting started

Three steps and you're moving.

1

Log in

Head to rhiannonsway.com/on-demand/login and sign in with the email address and password you used to join.

2

Open your library

Your classes live in the class library. Use the filters at the top (All, Dance, Step, Box2theBeat, Workout) to find what you fancy.

3

Press play

Pick a class and go. Most need no equipment. If one uses light weights or a band, there's always a no-equipment option.

Watch on anything with a web browser

Phones, tablets, laptops and smart TVs all work. There's no app to download, just log in through your browser. Tip: bookmark the library page so it's one tap away on your phone.

Your account

Update your payment method, view invoices, reset your password or cancel any time from My Account. Your membership is £4.99 a month, there's no commitment, and if you do cancel you keep access until the end of your billing period.

SAY HELLO

Tried a class? Tell me what you thought! Tag @rhiannons_way on Instagram, or if you get stuck or have any questions, email me at move@rhiannonsway.com. I read every message.
